MATHS

MONTH	CHAPTER NAME	LEARNING OBJECTIVES	ACTIVITIES
APRIL	CHAPTER -1 LARGE NUMBERS CHAPTER -2 ADDITION AND SUBTRACTION	Students will learn about: - *Roman Numerals * 5 digit numbers(Place value chart Indian & international system of numerals) *Addition with large numbers. Subtraction of numbers without grouping, with grouping, subtraction by rounding off num bers .	Collect four digit number arrange in ascending & descending order and check the numbers are even or odd Prepare chart of roman numerals with the help of match stick .
MAY	CHAPTER -3 MULTIPLICATION CHAPTER -4 DIVISION	Students will learn about: - Multiplication by one, two and three digit numbers . Multiplication by using lattice method . Division by one, two and three digit numbers , Estimating the quotient by rounding off	Multiplication by Lattice method using grid
JUNE	SUMMER VACATIONS		
JULY	CHAPTER -5 MULTIPLES AND FACTORS CHAPTER -9 PATTERNS AND SYMMETRY	Students will be able to learn the concept of multiples and factors L.C.M , H.C.F and divisibility test. Students able to find identify symmetry in shapes.	Using card board make model fact or tree
AUGUST	CHAPTER -14 DATA HANDLING	Students able to learn : - Information by using pictograph and bar graph	Find birthday of all the students and make a bar graph and tell how many children's birthday fall on vacations month.
SEPTEMBER	TERM -1 EXAMINATION		
OCTOBER	CHAPTER-6 FRACTIONS CHAPTER-7 DECIMALS	Students able to learn:- Fractions , reductions of fraction in lowest form , comparison of like and unlike fractions , proper and improper , conversion of improper to mixed and mixed to improper fraction and addition and subtraction of like fractions.	Using glace paper to show fractions and its different types and paste on scrap book
NOVEMBER	CHAPTER-8 THE WORLD OF SHAPES CHAPTER-10 METRIC MEASURES	Students able to learn about point, line , line segment , ray , measuring line segment by ruler , drawing a circle, classification of polygons, Students able to learn conversion of smallest unit to greatest unit and vice- versa. Addition and subtraction of metric measures.	Measure the dimensions of any 5 objects Make a chart of basic geometrical shapes
DECEMBER	CHAPTER-11 PERIMETER AND AREA	Students able to learn:- solid shapes and perimeter and area of geometrical shapes.	

	CHAPTER-12 TIME	Students able to learn conversion of different units of time, time in 24 hours clocks, addition subtraction of time.	Prepare a model of clock using card board.
JANUARY	CHAPTER -13 MONEY	Students will learn about:- Mixed mathematical operations by DMAS rule. Conversion of paisa to rupees and vice versa Unitary method.	Make a list of items you bought on Diwali and find total expenditure
FEBRUARY	REVISION		
MARCH	TERM -2EXAMINATION		

SCIENCE

MONTH	CHAPTER NAME	LEARNING OBJECTIVES	ACTIVITIES
APRIL	Ch-1 Food and health Ch-2 My teeth	*Students will be able to know about importance of balance diet and food preservation. *Students will be able to know about different types of teeth and structure of human tooth.	*Paste the pictures of sources of carbohydrates, proteins, fats, vitamins, minerals and fibrous food in notebook and also write their benefits. *Draw the diagram of human tooth and label its parts also in notebook. *Ask your family members to count their teeth and make a table representing their name, age and number of teeth.
MAY	Ch-3 Plants and their food	*Students will be able to understand that sunlight is important for plants to make their own food. *Students will be able to know about plants and animals depend on each other.	*Activity of effect of sunlight on plants growth. *Collect the pictures of different plants and write their mode of nutrition.
JUNE	SUMMER BREAK		
JULY	Ch-4 Adaptation in plants Ch-5 How do animals increase in numbers?	*Students will be able to explain that different types of plant adaptations that emerge in varying habitats. *Students will be able to understand about reproduction and life cycle of butterfly and frog.	*Collect original leaves of different plants and make an album with their names and characteristics they adapted to survive in notebook. *Draw the diagram of different stages of life cycle of Butterfly in notebook. *Draw the diagram of different stages of life cycle of a frog in notebook.
AUGUST	REVISION		
SEPTEMBER	TERM -1 EXAMINATION		

OCTOBER	Ch-6 Matter and its three states CH-7 Force, Work and Energy	*Students will be able to give examples of changes in states of matter from heating and cooling. * Students will be able to study about the role of energy in doing work and different types of forces.	*Observe different materials in your surroundings and classify them to three states of matter. *Collect the pictures of simple and complex machines. *Create a poster on "SOLAR POWER" to highlight the uses of solar energy.
NOVEMBER	Ch-8 Air, Water and Weather Ch-9 The Earth and planets	*Students will be able to understand about atmosphere, weather conditions and different methods of purifying water. *Students will learnt about	*Make a chart on water cycle. *Different methods of purifying water. *Draw the diagram of solar
		rotation, revolution. *Students will also know about solar system and planets.	system and colour it also. *Activity of globe with candle and observe the shadow. *Diagram of revolution of Earth.
DECEMBER	Ch-10 Why do we have seasons?	*Students will be able to understand about different types of seasons and monsoon winds.	*Make a list showing different seasons, clothes we wear and food we eat during those seasons. *Collect cuttings of time of sunrise and sunset from a newspaper and paste on scrap book.
JANUARY	Ch-11 Our green world	*Students will know about different types of resources, sources of pollution and uses of forests.	*Make a album including information and pictures of some wild life sanctuaries and extinct or endangered species and also write the ways to preserve our resources for our next generation. *Make a map of India on notebook and locate important wild life sanctuaries on it.
